

Landscaping Projects

Service

- Landscaping projects are typically one-off services and bid individually. Smaller cleanups for maintenance customers can be done on a time and disposal basis.
- Potential projects include:
 - Spring cleanups
 - Fall / leaf cleanups
 - Winter cleanups and pruning
 - Pre-sale cleanups
 - Garden bed clearing and creation
 - Hedge, bush, and tree trimming, pruning, and thinning
 - Clover lawn installation
- Cleanups are great to do before other landscaping projects, before a home goes on the market, or as a supplement to a landscaping maintenance program.
- Disposal is typically off-site.

Invoicing

- Landscaping projects are bid individually. A deposit of 50% is required for any quotes over \$1,000. These can be made by credit card through emailed quotes.
- Invoices are submitted by email upon completion of service. Payment can be made by cash, check, or credit card, through the invoice link or card reader.
